

Technical Data Sheet

MATERIAL:	Polyethylene, chlorinated
CATALOG NUMBER:	184
CAS NUMBER:	63231-66-3
DESCRIPTION:	Polyethylene, 25% chlorinated
FORMULA:	Unspecified

TYPICAL PROPERTIES:

Appearance:	Powder
Chlorine content:	25% by wt
Density:	1.10
Melt viscosity:	12,500 p
Solubility:	Cyclohexanone, toluene

GENERAL INFORMATION: Chlorinated polyethylene offers excellent flexibility and resistance to ignition, chemical, heat, low temperatures and weathering. Applications include automotive hose and tubing, wire and cable jacketing for electrical applications as well as hydraulic hoses and gaskets.

STRUCTURE:
