## SAFETY DATA SHEET

Revision Date: 03/18/20

Section 1: Identification			
PRODUCT AND COMPANY	INFORMATION		
Product Name:	Isopropyl acrylate	Molecular Formula:	$C_6H_{10}O_2$
Catalog Number(s):	M-228		
Company:	Scientific Polymer Products, Inc. 6265 Dean Parkway Ontario, NY 14519		
Telephone: Fax: Website:	585/265-0413 585/265-1390 www.scipoly.com		
Emergency Phone Numbe	r: 800-255-3924 (CHEM TEL)		
Section 2: Hazards Identification			
Classification of the substance or mixture			

## GHS Classification in accordance with 29 CFR 1910 (OSHA HCS)

Flammable liquids, Category 3, H226 Acute toxicity, Oral, Category 4), H302 Skin irritation, Category 2, H315 Eye irritation, Category 2A, H319 Specific target organ toxicity- single exposure, Category 3, Respiratory system, H335

#### GHS Label elements, including precautionary statements

Pictogram

Signal word

Warning

Hazard statement(s) H226 H302 H312 H315 H319 H332 H335	Flammable liquid and vapor. Harmful if swallowed. Harmful in contact with skin. Causes skin irritation. Causes serious eye irritation. Harmful if inhaled. May cause respiratory irritation.
Precautionary statemen	t(s)
P210	Keep away from heat/sparks/open flames/hot surfaces. NO smoking.
P261	Avoid breathing dust/ fume/ gas/ mist/ vapors/ spray.
P280	Wear protective gloves/eye protection/face protection.
P301+P312	IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell.
P302+P352	IF ON SKIN: Wash with plenty of soap and water.
P304+P340	IF INHALED: Remove person to fresh air and keep at rest in a position comfortable for breathing.
P305+P351+P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing.

P332+P313	If skin irritation occurs: Get medical advice/attention.
P403+P235	Store in a well ventilated place. Keep cool.
P501	Dispose of contents/container to an approved waste disposal plant.

## Hazards not otherwise classified (HNOC) or not covered by GHS- None

To the best of our knowledge, the toxicological properties of this chemical have not been thoroughly investigated. Use appropriate procedures and precautions to prevent or minimize exposure.

## Section 3: Composition/Information on Ingredients

Ingredient	CAS Number	Concentration (%)
Isopropyl acrylate	689-12-3	100

## Section 4: First Aid Measures

#### Description of first aid measures

#### **General advice**

Consult a physician. Show this safety data sheet to the doctor in attendance. Move out of dangerous area.

#### If inhaled

If breathed in, move person into fresh air. If not breathing, give artificial respiration. Consult a physician.

#### In case of skin contact

Wash off with soap and plenty of water. Consult a physician if irritation persists.

#### In case of eye contact

Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician if irritation persists.

#### If swallowed

Do NOT induce vomiting. Seek medical attention.

#### Most important symptoms and effects, both acute and delayed

The most important known symptoms and effects are described in the labelling (see section 2) and/or in section 11.

## Indication of any immediate medical attention and special treatment needed

No data available

## **Section 5: Fire-Fighting Measures**

#### Suitable extinguishing media

Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.

#### Special hazards arising from the substance or mixture

May emit hazardous fumes under fire conditions, releases flammable gases when in contact with water.

#### Advice for firefighters

Wear self-contained breathing apparatus for firefighting if necessary.

#### **Further information**

Use water spray to cool unopened containers

## Section 6: Accidental Release Measures

## Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. Avoid breathing vapors, mist or gas. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe areas. For personal protection see section 8.

#### **Environmental precautions**

Prevent further leakage or spillage if safe to do so. Do not let product enter drains.

#### Methods and materials for containment and cleaning up

Dike and contain the spill with inert material. Absorb on sand, vermiculite or diatomite. Keep in suitable, closed containers for disposal.

## **Reference to other sections**

For disposal see section 13.

## Section 7: Handling and Storage

#### Precautions for safe handling

Avoid contact with skin and eyes. Avoid inhalation of vapor or mist. Avoid prolonged or repeated exposure. Use only in a chemical fume hood. Open and handle container with care. Keep ignition sources away. For precautions see section 2.

#### Conditions for safe storage, including any incompatibilities

Keep container tightly closed in a dry and well ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage.

Recommended storage temperature 15 – 30° C

#### Specific end use(s)

Laboratory chemicals, Synthesis of substances

## Section 8: Exposure Controls/Personal Protection

#### **Control parameters**

#### Components with workplace control parameters

Contains no substances with occupational exposure limit values.

#### **Exposure controls**

#### Appropriate engineering controls

Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of workday

#### Personal protective equipment

#### Eye/face protection

Face shield and safety glasses. Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU).

#### Skin protection

Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands.

#### **Body Protection**

Impervious clothing, flame retardant antistatic protective clothing. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.

#### **Respiratory protection**

Where risk assessment shows air purifying respirators are appropriate use full face respirator with multi-purpose combination (US) or type ABEK (EN 14387) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).

#### **Control of environmental exposure**

Prevent further leakage or spillage if safe to do so. Do not let product enter drains

## Information on basic physical and chemical properties

a) b) c) d) e) f) g) h) i) j)	Appearance Odor Odor Threshold pH Melting point/freezing point Initial boiling point and boiling range Flash point Evaporation rate Flammability (solid, gas) Upper/lower flammability or explosive limits	Form: Liquid No data available No data available No data available No data available 108° C 23° C No data available No data available No data available
k) I)	Vapor pressure Vapor density	No data available No data available
") m)	Relative density	No data available
n)	Water solubility	No data available
o)	Partition coefficient: n- octanol/water	No data available
р)	Auto-ignition temperature	No data available
q)	Decomposition temperature	No data available
rĴ	Viscosity	No data available
s)	Explosive properties	No data available
t)	Oxidizing properties	No data available

## Other safety information

No data available

## Section 10: Stability and Reactivity

### Reactivity

No data available

#### **Chemical stability**

Stable under recommended storage conditions.

#### **Possibility of hazardous reactions** No data available

#### **Conditions to avoid** Heat, flames, sparks and other ignition sources

## Incompatible materials

Strong oxidizing agents

## Hazardous decomposition products

Other decomposition products- Carbon oxides In the event of fire: see section 5

**Section 11: Toxicological Information** 

## Information on toxicological effects

Acute toxicity No data available

Skin corrosion/irritation No data available

Serious eye damage/eye irritation No data available

#### **Respiratory or skin sensitization** No data available

## Germ cell mutagenicity

No data available

#### Carcinogenicity

- IARC: No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.
- ACGIH: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by ACGIH.
- NTP: No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.
- OSHA: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA.

#### **Reproductive toxicity**

No data available

Specific target organ toxicity- single exposure (GHS) No data available

Specific target organ toxicity- repeated exposure (GHS) No data available

Aspiration hazard No data available

## **Additional Information**

RTECS: Not available

To the best of our knowledge, the chemical, physical, and toxicological properties have not been thoroughly investigated.

## Section 12: Ecological Information

**Toxicity** No data available

Persistence and degradability No data available

**Bioaccumulative potential** No data available

**Mobility in soil** No data available

**Results of PBT and vPvB assessment** PBT/vPvB assessment not available as chemical safety assessment not required/not conducted

**Other adverse effects** No data available

## Section 13: Disposal Considerations

#### Waste treatment methods

Product

Offer surplus and non-recyclable solutions to a licensed disposal company. Contact a licensed professional waste disposal service to dispose of this material.

## Contaminated packaging

Dispose of as unused product.

## **Section 14: Transport Information**

<b>DOT (US)</b> UN Number: 1993 Proper shipping name: Flammabl Poison Inhalation Hazard: No	Class: 3 e Liquids (Isopropyl acrylate)	Packing group: III
<b>IMDG</b> UN Number: 1993 Proper shipping name: Flammabl Poison Inhalation Hazard: No	Class: 3 e Liquids (Isopropyl acrylate)	Packing group: III
IATA UN Number: 1993 Proper shipping name: Flammabl Poison Inhalation Hazard: No	Class: 3 e Liquids (Isopropyl acrylate)	Packing group: III

## **Section 15: Regulatory Information**

#### SARA 302 Components

No chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302.

#### SARA 313 Components

This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.

#### SARA 311/312 Hazards

Fire Hazard, Acute Health Hazard

#### **Massachusetts Right To Know Components**

No components are subject to the Massachusetts Right to Know Act.

Pennsylvania Right To Know Components	
Isopropyl acrylate	CAS-No. 689-12-3
New Jersey Right To Know Components	
Isopropyl acrylate	CAS-No. 689-12-3

#### California Prop. 65 Components

This product does not contain any chemicals known to State of California to cause cancer, birth defects, or any other reproductive harm.

Section 16: Other Information				
<b>HMIS Rating</b> Health:	2	<b>NFPA Rating</b> Health:	2	
Flammability:	2	Flammability:	2	
Reactivity:	ō	Reactivity:	Ō	

This material is intended for laboratory use only. It is not sold or intended for drug, household or other uses. The information represents the most accurate and complete data currently available to us. However, we make no warranty, express or implied, with respect to such information, and we assume no liability resulting from its use.
