

Section 1: Identification

PRODUCT AND COMPANY INFORMATION

**Product Name:** Ditridecyl phthalate **Molecular Formula:** Unspecified  
**Catalog Number(s):** P-176  
**Company:** Scientific Polymer Products, Inc.  
6265 Dean Parkway  
Ontario, NY 14519  
**Telephone:** 585/265-0413  
**Fax:** 585/265-1390  
**Website:** www.scipoly.com  
**Emergency Phone Number:** 800-255-3924 (CHEM TEL)

Section 2: Hazards Identification

Classification of the substance or mixture

Not a hazardous substance or mixture.

GHS Label elements, including precautionary statements

Not a hazardous substance or mixture.

Hazards not otherwise classified (HNOC) or not covered by GHS – none

To the best of our knowledge, the toxicological properties of this chemical have not been thoroughly investigated. Use appropriate procedures and precautions to prevent or minimize exposure.

Section 3: Composition/Information on Ingredients

| Ingredient           | CAS Number | Concentration (%) |
|----------------------|------------|-------------------|
| Ditridecyl phthalate | 68515-47-9 | 100               |

Section 4: First Aid Measures

Description of first aid measures

If inhaled

If breathed in, move person into fresh air. If not breathing, give artificial respiration. Consult a physician.

In case of skin contact

Wash off with soap and plenty of water.

In case of eye contact

Flush eyes thoroughly with water.

If swallowed

Never give anything by mouth to an unconscious person. Rinse mouth with water. Seek medical attention if discomfort occurs.

**Most important symptoms and effects, both acute and delayed**

The most important known symptoms and effects are described in the labelling (see section 2) and/or in section 11

**Indication of any immediate medical attention and special treatment needed**

No data available

**Section 5: Fire-Fighting Measures**

**Suitable extinguishing media**

Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide. Do NOT use straight streams of water.

**Special hazards arising from the substance or mixture**

No data available.

**Advice for firefighters**

Wear self-contained breathing apparatus for firefighting if necessary.

**Further information**

No data available

**Section 6: Accidental Release Measures**

**Personal precautions, protective equipment and emergency procedures**

Avoid breathing vapors, mist or gas. Ensure adequate ventilation. For personal protection see section 8.

**Environmental precautions**

Prevent further leakage or spillage if possible. Absorb or cover with dry earth, sand or other non-combustible material and transfer to containers. Do not let product enter drains. Discharge into the environment must be avoided.

**Methods and materials for containment and cleaning up**

Keep in suitable, closed containers for disposal.

**Reference to other sections**

For disposal see section 13.

**Section 7: Handling and Storage**

**Precautions for safe handling**

Prevent small spills and leakage to avoid slip hazard. Material can accumulate static charges which may cause an electrical spark(ignition source). When the material is handled in bulk, an electrical spark could ignite any flammable vapors from liquids or residues that may be present. Use proper bonding and/or ground procedures. However, bonding and grounds may not eliminate the hazard from static accumulation. For precautions see section 2.

**Conditions for safe storage, including any incompatibilities**

Keep container tightly closed in a dry and well ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage.

This material is a static accumulator.

**Specific end use(s)**

Laboratory chemicals, Manufacture of substances

**Section 8: Exposure Controls/Personal Protection**

**Control parameters**

**Components with workplace control parameters**

No occupational exposure limit values exist for any of the components listed in Section 3 of this SDS.

## Exposure controls

### Appropriate engineering controls

Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of the workday.

### Personal protective equipment

#### Eye/face protection

Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU).

#### Skin protection

Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands.

#### Body Protection

Impervious clothing. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.

#### Respiratory protection

Where risk assessment shows air purifying respirators are appropriate use a full face respirator with multi-purpose combination (US) or type ABEK (EN 14387) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).

#### Control of environmental exposure

Comply with applicable environmental regulations limiting discharge to air, water and soil. Protect the environment by applying appropriate control measures to prevent or limit emissions.

## Section 9: Physical and Chemical Properties

### Information on basic physical and chemical properties

|    |  |                   |
|----|--|-------------------|
| a) | Appearance                                   | Form: liquid      |
| b) | Odor   | Low               |
| c) | Odor Threshold                               | No data available |
| d) | pH   | No data available |
| e) | Melting point/freezing point                 | No data available |
| f) | Initial boiling point and boiling range      | No data available |
| g) | Flash point                                  | No data available |
| h) | Evaporation rate                             | No data available |
| i) | Flammability (solid, gas)                    | No data available |
| j) | Upper/lower flammability or explosive limits | No data available |
| k) | Vapor pressure                               | No data available |
| l) | Vapor density                                | No data available |
| m) | Relative density                             | No data available |
| n) | Water solubility                             | <0.1% (25°C)      |
| o) | Partition coefficient: n- octanol/water      | No data available |
| p) | Auto-ignition temperature                    | No data available |
| q) | Decomposition temperature                    | No data available |
| r) | Viscosity                                    | No data available |
| s) | Explosive properties                         | No data available |
| t) | Oxidizing properties                         | No data available |

### Other safety information

No data available

## Section 10: Stability and Reactivity

**Reactivity**

See sub-sections below

**Chemical stability**

Material is stable under normal conditions

**Possibility of hazardous reactions**

Hazardous polymerization will not occur.

**Conditions to avoid**

Excessive heat. High energy sources of ignition.

**Incompatible materials**

Strong oxidizers

**Hazardous decomposition products**

Other decomposition products – Material does not decompose at ambient temperatures.  
In the event of fire: see section 5

**Section 11: Toxicological Information****Information on toxicological effects****Acute toxicity**

Oral LD50 – Rat > 10,000 mg/kg  
Minimally toxic. Based on test data for the material

Inhalation LC50 > 0.13 mg/l- Rat-6 H: Max attainable vapor conc.  
Minimally toxic. Based on test data for structurally similar materials

Dermal LD50 >3,160 mg/kg -Rabbit  
Minimally toxic. Based on test data for the material

**Skin corrosion/irritation**

Skin- Rabbit  
Result: Negligible irritation to skin at ambient temperatures  
Not expected to be a skin sensitizer

**Serious eye damage/eye irritation**

Eyes-Rabbit  
Result: May cause mild, short lasting discomfort to eyes.

**Respiratory or skin sensitization**

No end point data for material. Negligible hazard at ambient /normal handling temperatures.  
Not expected to be a respiratory sensitizer.

**Germ cell mutagenicity**

Not expected to be a germ cell mutagen

**Carcinogenicity**

- IARC: No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.
- ACGIH: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by ACGIH.
- NTP: No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.
- OSHA: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA.

**Reproductive toxicity**

Not expected to be a reproductive toxicant.

**Specific target organ toxicity - single exposure**

No data available

**Specific target organ toxicity - repeated exposure**

No data available

**Aspiration hazard**

Not expected to be an aspiration hazard

**Additional Information**

RTECS: Not available

**Section 12: Ecological Information****Toxicity**

No data available

**Persistence and degradability**

No data available

**Bioaccumulative potential**

No data available

**Mobility in soil**

No data available

**Results of PBT and vPvB assessment**

PBT/vPvB assessment not available as chemical safety assessment not required/not conducted

**Other adverse effects**

No data available

**Section 13: Disposal Considerations****Waste treatment methods****Product**

Offer surplus and non-recyclable solutions to a licensed disposal company.

**Contaminated packaging**

Dispose of as unused product.

**Section 14: Transport Information****DOT (US)**

Not dangerous goods

**IMDG**

Not dangerous goods

**IATA**

Not dangerous goods

**Section 15: Regulatory Information****SARA 302 Components**

No chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302.

**SARA 313 Components**

This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.

**SARA 311/312 Hazards**

No SARA Hazards

**Massachusetts Right To Know Components**

No components are subject to the Massachusetts Right to Know Act.

**Pennsylvania Right To Know Components**

|                      |                     |

| Ditridecyl phthalate | CAS-No.<br>131-11-3 |
|----------------------|---------------------|

**California Prop. 65 Components**

This product does not contain any chemicals known to State of California to cause cancer, birth defects, or any other reproductive harm.

**Section 16: Other Information**

**HMIS Rating**

|               |   |
|---------------|---|
| Health:       | 0 |
| Flammability: | 1 |
| Reactivity:   | 0 |

**NFPA Rating**

|               |   |
|---------------|---|
| Health:       | 0 |
| Flammability: | 1 |
| Reactivity:   | 0 |

This material is intended for laboratory use only. It is not sold or intended for drug, household or other uses. The information represents the most accurate and complete data currently available to us. However, we make no warranty, express or implied, with respect to such information, and we assume no liability resulting from its use.
